

Screen Shot 1

The screenshot displays an audio editing software interface with the following components:

- Title Bar:** Edit: 60.30.15 Edit
- Top Control Bar:** Includes buttons for SHUFFLE, SPOT, SLIP, and GRID. It also features navigation and editing tools like zoom, pan, and solo. A large digital display shows the current time at 4:08.700. To the right, a panel shows Grid (0:01.000) and Nudge (0:00.010) settings.
- TRACKS Panel:** Lists tracks with durations: GdtM, 60Sec, 30Sec1, 30Sec, and 15Sec.
- Timeline:** Shows a scale from 0:00 to 5:00 in 30-second increments. A yellow cursor is positioned at 4:08.700.
- Markers:** A row of markers is visible, with a yellow diamond marker labeled "Button Ending" at the cursor's position.
- Track Controls:** For each track, there are controls for Inserts A-E, Sends A-E, and I/O. Volume levels are set to 0.0 and gain to +100.
- Waveforms:** The tracks contain audio waveforms with labels: "Good to Me" (blue), "60 Sec" (green), "30 Sec" (red), and "15 Sec" (teal).
- GROUPS Panel:** Shows a group selection menu with "<ALL>" selected.
